

Readoption Review

Children with Special Health Care Needs 410 IAC 3.2

IC 4-22-2.5-3.1(c) requires an agency to conduct a review to consider whether there are alternative methods of achieving the purpose of the rule that are less costly or less intrusive, or that would minimize the economic impact of the proposed rule on small business.

Description of Rule:

410 IAC 3.2 is the rule used to administer the Children's Special Health Care Services (CSHCS) program. The rule sets the standards for application to the program, eligibility determinations and other general information about the operation of the program.

Readoption Analysis:

- 1) **Is there a continued need for this rule?**
Yes because ISDH needs the standards in the rule to continue administering the CSHCS program.
- 2) **What is the nature of any complaints or comments received from the public, including small business, concerning the rule or the implementation of the rule by the agency?**
ISDH has not received any complaints.
- 3) **Examine the complexity of the rule, including difficulties encountered by the agency in administering the rule and small businesses in complying with the rule.**
There have been no difficulties encountered by ISDH or small businesses.
- 4) **To what extent does the rule overlap, duplicate, or conflict with other federal, state, or local laws, rules, regulations, or ordinances?**
This rule does not overlap with other laws or regulations.
- 5) **When was the last time the rule was reviewed under this section or otherwise evaluated by the agency, and the degree to which technology, economic conditions, or other factors have changed in the area affected by this rule since that time?**
This rule was reviewed September 2012. Since the last readoption, it has been amended as necessary to meet any changes in circumstances. There have been some statutory changes that affect the program, but rule changes are not necessary to operate the program in accordance with those changes.
